Information about the Arizona Qualifying Charitable Organization Contribution Tax Credit

Donate up to $800 to help Devereux Arizona make a difference in the lives of children and receive a credit on your state taxes!

The State of Arizona’s Qualifying Charitable Organization Tax Credit allows you to make a charitable donation to qualifying nonprofit organizations and receive a dollar-for-dollar tax credit, which means your donation will reduce the amount you owe to the state or increase your refund. This makes the program a win-win for Devereux Arizona and our donors!

- A married couple filing jointly may receive a maximum tax credit of $800. If you are single, an unmarried head of household, or married filing separately, you may receive a maximum tax credit of $400.
- This tax credit may be claimed in addition to the Arizona School/Education Tax Credit.
- Donations must be made or postmarked by April 17, 2018. Devereux Arizona will provide you with a tax receipt after the donation is made.
- You no longer have to itemize deductions in order to claim the credit. Your donation will help us to provide services to thousands of vulnerable children across Arizona through our foster care, residential treatment, prevention, and counseling programs.

For more information about the tax credit, consult your tax advisor, or contact the Arizona Department of Revenue or calling 602-255-3381.

Devereux urges you to seek advice from your tax advisor regarding any charitable giving and allowable deductions.

Yes, I want to help Arizona kids!
