Phased School Reopening
Health and Safety Plan Template

Each school entity must create a Health and Safety Plan which will serve as the local guidelines for all instructional and non-instructional school reopening activities. As with all emergency plans, the Health and Safety Plan developed for each school entity should be tailored to the unique needs of each school and should be created in consultation with local health agencies. Given the dynamic nature of the pandemic, each plan should incorporate enough flexibility to adapt to changing conditions. The templates provided in this toolkit can be used to document a school entity’s Health and Safety Plan, with a focus on professional learning and communications, to ensure all stakeholders are fully informed and prepared for a local phased reopening of school facilities. A school entity’s Health and Safety Plan must be approved by its governing body and posted on the school entity’s publicly available website prior to the reopening of school. School entities should also consider whether the adoption of a new policy or the modification of an existing policy is necessary to effectively implement the Health and Safety Plan.

Each school entity should continue to monitor its Health and Safety Plan throughout the year and update as needed. All revisions should be reviewed and approved by the governing body prior to posting on the school entity’s public website.

Health and Safety Plan Governing Body Affirmation Statement ............................................................

This resource draws on a resource created by the Council of Chief State School Officers (CCSSO) that is based on official guidance from multiple sources to include: the Centers for Disease Control and Prevention, the White House, American Academy of Pediatrics, Learning Policy Institute, American Enterprise Institute, Rutgers Graduate School of Education, the World Health Organization, the Office of the Prime Minister of Norway as well as the departments of education/health and/or offices of the governor for Idaho, Montana, New York, Texas and Washington, DC.
Health and Safety Plan: Devereux Advanced Behavioral Health (CIDDS Learning Center, CARES, Brandywine Schools)

All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by Governor Wolf’s Process to Reopen Pennsylvania. The administration has categorized reopening into three broad phases: red, yellow, or green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and physical interactions:

- The Red Phase: Schools remain closed for in-person instruction and all instruction must be provided via remote learning, whether using digital or non-digital platforms. Provisions for student services such as school meal programs should continue. Large gatherings are prohibited.
- The Yellow Phase and Green Phase: Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity’s publicly available website.

Based on your county’s current designation (i.e., red, yellow, green) and the best interests of your local community, indicate which type of reopening your LEA has selected by checking the appropriate box in row three of the table below. Use the remainder of the template to document your LEA’s plan to bring back students and staff, how you will communicate the type of reopening with stakeholders in your community, and the process for continued monitoring of local health data to assess implications for school operations and potential adjustments throughout the school year.

Depending upon the public health conditions in any county within the Commonwealth, there could be additional actions, orders, or guidance provided by the Pennsylvania Department of Education (PDE) and/or the Pennsylvania Department of Health (DOH) designating the county as being in the red, yellow, or green phase. Some counties may not experience a straight path from a red designation, to a yellow, and then a green designation. Instead, cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen. This means that your school entity should account for changing conditions in your local Health and Safety Plan to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed.
Type of Reopening

Key Questions

- How do you plan to bring students and staff back to physical school buildings, particularly if you still need physical distancing in place?
- How did you engage stakeholders in the type of re-opening your school entity selected?
- How will you communicate your plan to your local community?
- Once you reopen, what will the decision-making process look like to prompt a school closure or other significant modification to operations?

Based on your county’s current designation and local community needs, which type of reopening has your school entity selected? (SELECT ONE BOX BELOW)

☐ Total reopen for all students and staff (but some students/families opt for distance learning out of safety/health concern).
☒ Scaffolded reopening: Some students are engaged in in-person learning, while others are distance learning (i.e., some grade levels in-person, other grade levels remote learning).
☐ Blended reopening that balances in-person learning and remote learning for all students (i.e., alternating days or weeks).
☐ Total remote learning for all students. (Plan should reflect future action steps to be implemented and conditions that would prompt the decision as to when schools will re-open for in-person learning).

Anticipated launch date for in-person learning (i.e., start of blended, scaffolded, or total reopening):

Devereux CARES and CIDDS Learning Center are planning on a total reopen for day and residential students. Some day student families may opt for distance learning out of health and safety concerns. These requests will be handled on an individual basis in coordination with the student’s LEA.

Devereux’s CBHS Schools will open for in-person instruction for residential students. Day students will engage in distance learning through synchronous remote instruction. This plan will be evaluated at the end of the 1st marking period.

The anticipated launch date will be August 31st to begin in-person instruction.
Pandemic Coordinator/Team

Each school entity is required to identify a pandemic coordinator and/or pandemic team with defined roles and responsibilities for health and safety preparedness and response planning during the phased reopening of schools. The pandemic coordinator and team will be responsible for facilitating the local planning process, monitoring implementation of your local Health and Safety Plan, and continued monitoring of local health data to assess implications for school operations and potential adjustments to the Health and Safety Plan throughout the school year. To ensure a comprehensive plan that reflects the considerations and needs of every stakeholder in the local education community, LEAs are encouraged to establish a pandemic team to support the pandemic coordinator. Inclusion of a diverse group of stakeholders is critical to the success of planning and implementation. LEAs are highly encouraged to make extra effort to engage representatives from every stakeholder group (i.e., administrators, teachers, support staff, students, families, community health official or other partners), with a special focus on ensuring that the voices of underrepresented and historically marginalized stakeholder groups are prioritized. In the table below, identify the individual who will serve as the pandemic coordinator and the stakeholder group they represent in the row marked “Pandemic Coordinator”. For each additional pandemic team member, enter the individual’s name, stakeholder group they represent, and the specific role they will play in planning and implementation of your local Health and Safety Plan by entering one of the following under “Pandemic Team Roles and Responsibilities”:

- **Health and Safety Plan Development**: Individual will play a role in drafting the enclosed Health and Safety Plan;
- **Pandemic Crisis Response Team**: Individual will play a role in within-year decision making regarding response efforts in the event of a confirmed positive case or exposure among staff and students; or
- **Both (Plan Development and Response Team)**: Individual will play a role in drafting the plan and within-year decision making regarding response efforts in the event of confirmed positive case.

Key Strategies, Policies, and Procedures

Once your LEA has determined the type of reopening that is best for your local community and established a pandemic coordinator and/or pandemic team, use the action plan templates on the following pages to create a thorough plan for each of the requirements outlined in the Pennsylvania Department of Education’s Preliminary Guidance for Phased Reopening of PreK-12 Schools. For each domain of the Health and Safety Plan, draft a detailed summary describing the key strategies, policies, and procedures your LEA will employ to satisfy the requirements of the domain. The domain summary will serve as the public-facing description of the efforts your LEA will take to ensure health and safety of every stakeholder in your local education community. Thus, the summary should be focused on the key information that staff, students, and families will require to clearly understand your local plan for the phased reopening of schools. You can use the key questions to guide your domain summary.
For each requirement within each domain, document the following:

- **Action Steps under Yellow Phase**: Identify the discrete action steps required to prepare for and implement the requirement under the guidelines outlined for counties in yellow. List the discrete action steps for each requirement in sequential order.
- **Action Steps under Green Phase**: Identify the specific adjustments the LEA or school will make to the requirement during the time period the county is designated as green. If implementation of the requirement will be the same regardless of county designation, then type “same as Yellow” in this cell.
- **Lead Individual and Position**: List the person(s) responsible for ensuring the action steps are fully planned and the school system is prepared for effective implementation.
- **Materials, Resources, and/or Supports Needed**: List any materials, resources, or support required to implement the requirement.
- **Professional Development (PD) Required**: In order to implement this requirement effectively, will staff, students, families, or other stakeholders require professional development?

In the following tables, an asterisk (*) denotes a mandatory element of the plan. All other requirements are highly encouraged to the extent possible.

### Cleaning, Sanitizing, Disinfecting, and Ventilation

#### Key Questions

- How will you ensure the building is cleaned and ready to safely welcome staff and students?
- How will you procure adequate disinfection supplies meeting OSHA and [CDC requirements for COVID-19](https://www.cdc.gov/coronavirus/2019-ncov/recommended-prevent-measures.html)?
- How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?
- What protocols will you put in place to clean and disinfect throughout an individual school day?
- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

#### Summary of Responses to Key Questions:

- Devereux janitorial staff have continued to clean school buildings, even during the time when students have not been present for instruction. Devereux has developed COVID-19 cleanliness protocols, including a cleaning checklist, to ensure that cleaning is consistent with recommendations from the CDC. Our cleaning supplies meet or exceed OSHA and CDC requirements.
- “COVID Captains” are designated at each site to ensure accurate and consistent implementation of Devereux COVID-19 protocols.
- The cleaning checklist will be completed in a final walkthrough by the Education Director and the COVID Captains prior to reopening.
- The COVID Captains will ensure that the cleaning checklist is completed once a day.
- In addition to the daily cleaning, janitorial and supervisory staff will sweep the building routinely to disinfect high touch areas. Teachers and staff will use disinfectant wipes to clean desk tops, door knobs and other high touch areas in their classrooms. To the extent possible, staff will wipe down high touch surfaces (faucets, door knobs) in bathrooms following student use.
- Janitorial staff will complete training related to COVID-19, mitigating infection and proper cleaning procedures. Teachers and staff will receive training in the Health and Safety Plan prior to reopening to students. This will include procedures for disinfecting and sanitizing.

Physical Distancing and Other Safety Protocols

Key Questions

- How will classrooms/learning spaces be organized to mitigate spread?
- How will you group students with staff to limit the number of individuals who come into contact with each other throughout the school day?
- What policies and procedures will govern use of other communal spaces within the school building?
- How will you utilize outdoor space to help meet physical distancing needs?
- What hygiene routines will be implemented throughout the school day?
- How will you adjust student transportation to meet physical distancing requirements?
- What visitor and volunteer policies will you implement to mitigate spread?
- Will any of these physical distancing and other safety protocols differ based on age and/or grade ranges?
- Which stakeholders will be trained on physical distancing and other safety protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

Summary of Responses to Key Questions:

- Classrooms will be arranged with desks and work spaces maintaining 6 feet of distance between students.
- The same students and staff will be grouped together throughout the day. If change of teacher is necessary, the teachers will move to the different classroom rather than the students, minimizing the number of people moving throughout the building.
- Students will have a designated location for items from home. Students will have their own set of instructional materials and will not share materials.
- All buildings/programs will follow the Devereux Advanced Behavioral Health Phased Reopening Procedures. This plan includes checklists for reopening and utilizes the guidance from the CDC.
- Students will be able to access school yards and playground for lunch and recess. Adult supervision will ensure that all safety protocols are followed. If appropriate, outdoor space may be utilized for instructional purposes. Community-based instruction will only resume under Phase 2 of Devereux’s Phased Reopening Procedures.
- Students will each lunch in their classroom or a designated area outside.
- All staff and students will follow hygiene routines upon entry into the building, when using the restroom, before/after eating, before/after using outdoor spaces and when exiting the building. Staff will teach proper hand washing routines as well as proper use of hand sanitizer. Hygiene routines will be target areas for instruction for students that cannot complete these routines independently.
- Staff will be required to wear face coverings. Students will be encouraged to wear face coverings to the greatest extent possible, particularly in situations where physical distancing is not possible. Tolerating mask wearing will be a target for
Students who do not respond to group lessons will receive individualized assessment and lesson planning to teach this skill.

- Students entering and exiting transportation will be staggered to allow students to safely exit and enter the vehicle and the building using proper physical distancing. Temperatures will be taken prior to exiting the vehicle to ensure that the student does not have a temperature above 100 degrees.
- Visitors to the building will be limited. Remote technology will be utilized for meetings under the initial phase of reopening.
- All staff working in the buildings/programs will participate in a training in the safety protocols prior to reopening for students.
- On the first staff day, school leadership will review all safety protocols with staff. Compliance with COVID-19 safety procedures will be assessed by the COVID Captain on at least a weekly basis.

### Monitoring Student and Staff Health

#### Key Questions

- How will you monitor students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
- Where, to whom, when, and how frequently will the monitoring take place (e.g. parent or child report from home or upon arrival to school)?
- What is the policy for quarantine or isolation if a staff, student, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19?
- Which staff will be responsible for making decisions regarding quarantine or isolation requirements of staff or students?
- What conditions will a staff or student confirmed to have COVID-19 need to meet to safely return to school? How will you accommodate staff who are unable to uncomfortable to return?
- How will you determine which students are willing/able to return? How will you accommodate students who are unable or uncomfortable to return?
- When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Health and Safety Plan?
- Which stakeholders will be trained on protocols for monitoring student and staff health? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

#### Summary of Responses to Key Questions:
- All staff will complete the self-screening tool that reviews COVID-19 symptoms and other risk factors at home each morning prior to leaving for work. This includes a temperature check. Responses will be recorded and any symptoms will be reported to supervisors.
- Parents of students will be asked to complete the screening each morning. If symptoms exist, students should remain at home. Parents of day students will be asked to take their son/daughter’s temperature at home prior to sending them to school.
- Students will be screened for temperatures upon arrival. Students capable of responding will be asked the health screening questions.
- Students or staff exhibiting symptoms during the day will be isolated. The school nurse, in consultation with building/program administration, will direct staff or students to their healthcare provider or Chester County Health Department for decisions regarding quarantine.
- Individuals who are sick should go home or to a healthcare facility depending on how severe their symptoms are, and follow CDC guidance for caring for oneself and others who are sick. Staff or students with a probable or confirmed exposure will follow Devereux’s tiered protocol for individual and staff exposure to COVID-19.
- Staff and students with fever or symptoms that may be associated with COVID-19 and no known direct exposure to a person with COVID-19 may return to school when they are asymptomatic and have been fever free for at least 24 hours without the use of fever-reducing medicine or have confirmation of an alternative diagnosis from a health care provider that explains the COVID-19-like symptom(s).
- Staff or students with symptoms who have had a direct exposure to a person with COVID-19 will be considered probable cases and should remain excluded from school/work until criteria is meet to return to the program following Devereux’s tiered protocol for individual and staff exposure to COVID-19.
- A student or staff member who is quarantined following close contact with a case may not return to school until cleared to do so by DOH or the appropriate CMHD. A negative test obtained prior to the end of quarantine does not clear an individual for return. The entire quarantine period must be completed. Families will be notified of staff or student illness through phone and email communication from the Education Director.
- All staff working directly with students will be trained to monitor students for symptoms. Training will occur prior to the return to the building/program and will be reinforced by the administrators and nurse. Administrators will monitor the staff and provide on-going training as deemed necessary.

Other Considerations for Students and Staff
Key Questions

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?
- What special protocols will you implement to protect students and staff at higher risk for severe illness?
- How will you ensure enough substitute teachers are prepared in the event of staff illness?
- How will the LEA strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities, as well as supports for physical emotional wellness at school and at home?

Summary of Responses to Key Questions:

- All staff will wear masks unless it is unsafe for them to do so. Staff who are unable to wear masks will be provided with face shields. Staff may wear additional PPE based on specific interactions they are having with students.
- Students will be actively taught to tolerate face coverings. Older students who have the ability to wear face coverings during the day will be required to wear them during periods when physical distancing is not possible. Students who are unable to tolerate face coverings will receive direct instruction. Students who do not respond to formal group lesson plans will receive an individualized assessment and teaching plan to increase their use of face coverings.
- For students who are at higher risk, the school administration with work with the student’s family and LEA to determine to best solution for instruction. This may include options for part-time schedules and remote learning.
- Staff who are at higher risk will work with the center People Operations department to determine appropriate modifications. This may include access to FMLA.

**Health and Safety Plan Professional Development**
The success of your plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of your professional learning plan.

- **Topic**: List the content on which the professional development will focus.
- **Audience**: List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position**: List the person or organization that will provide the professional learning.
- **Session Format**: List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed**: List any materials, resources, or support required to implement the requirement.
- **Start Date**: Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date**: Enter the date on which the last professional learning activity for the topic will be offered.

### Health and Safety Plan Communications

Timely and effective family and caregiver communication about health and safety protocols and schedules will be critical. Schools should be particularly mindful that frequent communications are accessible in non-English languages and to all caregivers (this is particularly important for children residing with grandparents or other kin or foster caregivers). Additionally, LEAs should establish and maintain ongoing communication with local and state authorities to determine current mitigation levels in your community.

Health and Safety Plan Summary: Devereux Advanced Behavioral Health Schools

Anticipated Launch Date: August 17, 2020

Use these summary tables to provide your local education community with a detailed overview of your Health and Safety Plan. LEAs are required to post this summary on their website. To complete the summary, copy and paste the domain summaries from the Health and Safety Plan tables above.

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation

<table>
<thead>
<tr>
<th>Requirement(s)</th>
<th>Strategies, Policies and Procedures</th>
</tr>
</thead>
</table>
| * Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation) | • Devereux janitorial staff have continued to clean school buildings, even during the time when students have not been present for instruction. Devereux has developed COVID-19 cleanliness protocols, including a cleaning checklist, to ensure that cleaning is consistent with recommendations from the CDC. Our cleaning supplies meet or exceed OSHA and CDC requirements.  
• “COVID Captains” are designated at each site to ensure accurate and consistent implementation of Devereux COVID-19 protocols.  
• The cleaning checklist will be completed in a final walkthrough by the Education Director and the COVID Captains prior to reopening.  
• The COVID Captains will ensure that the cleaning checklist is completed once a day.  
• In addition to the daily cleaning, janitorial and supervisory staff will sweep the building routinely to disinfect high touch areas. Teachers and staff will use disinfectant wipes to clean desk tops, door knobs and other high touch areas in their classrooms. To the extent possible, staff will wipe down high touch surfaces (faucets, door knobs) in bathrooms following student use.  
• Janitorial staff will complete training related to COVID-19, mitigating infection and proper cleaning procedures. Teachers and staff will receive training in the Health and Safety Plan prior to reopening to students. This will include procedures for disinfecting and sanitizing. |
### Physical Distancing and Other Safety Protocols

<table>
<thead>
<tr>
<th>Requirement(s)</th>
<th>Strategies, Policies and Procedures</th>
</tr>
</thead>
<tbody>
<tr>
<td>* Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</td>
<td>• Classrooms will be arranged with desks and work spaces maintaining 6 feet of distance between students as much as possible.</td>
</tr>
<tr>
<td>* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</td>
<td>• The same students and staff will be grouped together throughout the day. If change of teacher is necessary, the teachers will move to the different classroom rather than the students, minimizing the number of people moving throughout the building.</td>
</tr>
<tr>
<td>* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</td>
<td>• Students will have a designated location for items from home. Students will have their own set of instructional materials and will not share materials.</td>
</tr>
<tr>
<td>* Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs</td>
<td>• All buildings/programs will follow the Devereux Advanced Behavioral Health Phased Reopening Procedures. This plan includes checklists for reopening and utilizes the guidance from the CDC.</td>
</tr>
<tr>
<td>* Handling sporting activities consistent with the <a href="#">CDC Considerations for Youth Sports</a> for recess and physical education classes</td>
<td>• Students will be able to access school yards and playground for lunch and recess. Adult supervision will ensure that all safety protocols are followed. If appropriate, outdoor space may be utilized for instructional purposes. Students will access the community as part as pre-employment training and community-based instruction. Community-based instruction will resume under Phase 2 of Devereux’s Phased Reopening Procedures.</td>
</tr>
<tr>
<td>Limiting the sharing of materials among students</td>
<td>• Students will each lunch in their classroom or a designated area outside.</td>
</tr>
<tr>
<td>Staggering the use of communal spaces and hallways</td>
<td>• All staff and students will follow hygiene routines upon entry into the building, when using the restroom, before/after eating, before/after using outdoor spaces and when exiting the building. Staff will teach proper hand washing routines as well as proper use of hand sanitizer. Hygiene routines will be target areas for instruction for students that cannot complete these routines independently.</td>
</tr>
<tr>
<td>Adjusting transportation schedules and practices to create physical distance between students</td>
<td></td>
</tr>
<tr>
<td>Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students</td>
<td></td>
</tr>
<tr>
<td>Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars</td>
<td></td>
</tr>
<tr>
<td>Requirement(s)</td>
<td>Strategies, Policies and Procedures</td>
</tr>
<tr>
<td>-------------------------------------------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Other physical distancing and safety practices</strong></td>
<td>• Staff will be required to wear face coverings. Students will be encouraged to wear face coverings to the greatest extent possible, particularly in situations where physical distancing is not possible. Tolerating mask wearing will be a target for instruction. Students who do not respond to group lessons will receive individualized assessment and lesson planning to teach this skill.</td>
</tr>
<tr>
<td></td>
<td>• Arrival and dismissal will be staggered to allow students to safely exit and enter the vehicle and the building using proper physical distancing. Temperatures will be taken prior to exiting the vehicle to ensure that the student does not have a temperature above 100 degrees.</td>
</tr>
<tr>
<td></td>
<td>• Visitors to the building will be limited. Remote technology will be utilized for meetings under the initial phase of reopening.</td>
</tr>
<tr>
<td></td>
<td>• All staff working in the buildings/programs will participate in a training in the safety protocols prior to reopening for students.</td>
</tr>
<tr>
<td></td>
<td>• On the first staff day, school leadership will review all safety protocols with staff. Compliance with COVID-19 safety procedures will be assessed by the COVID Captain on at least a weekly basis.</td>
</tr>
</tbody>
</table>

**Monitoring Student and Staff Health**

<table>
<thead>
<tr>
<th>Requirement(s)</th>
<th>Strategies, Policies and Procedures</th>
</tr>
</thead>
<tbody>
<tr>
<td>* Monitoring students and staff for symptoms and history of exposure</td>
<td>• All staff will complete the self-screening tool that reviews COVID-19 symptoms and other risk factors at home each morning prior to leaving for work. This includes a temperature check. Responses will be recorded and any symptoms will be reported to supervisors.</td>
</tr>
<tr>
<td>* Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure</td>
<td>• Parents of students unable to communicate will be asked to complete the screening each morning. If symptoms exist, students should remain at home. Parents of day students will be asked to take their son/daughter’s temperature at home prior to sending them to school.</td>
</tr>
<tr>
<td>* Returning isolated or quarantined staff, students, or visitors to school</td>
<td></td>

| Notifying staff, families, and the public of school closures and within-school-year changes in safety protocols | • Students will be screened for temperatures upon arrival. Students capable of responding will be asked the health screening questions.
• Students or staff exhibiting symptoms during the day will be isolated. The school nurse, in consultation with building/program administration, will direct staff or students to their healthcare provider or Chester County Health Department for decisions regarding quarantine.
• Individuals who are sick should go home or to a healthcare facility depending on how severe their symptoms are, and follow CDC guidance for caring for oneself and others who are sick. Staff or students with a probable or confirmed exposure will follow Devereux’s tiered protocol for individual and staff exposure to COVID-19.
• Staff and students with fever or symptoms that may be associated with COVID-19 and no known direct exposure to a person with COVID-19 may return to school when they are asymptomatic and have been fever free for at least 24 hours without the use of fever-reducing medicine or have confirmation of an alternative diagnosis from a health care provider that explains the COVID-19-like symptom(s).
• Staff or students with symptoms who have had a direct exposure to a person with COVID-19 will be considered probable cases and should remain excluded from school/work until criteria is meet to return to the program following Devereux’s tiered protocol for individual and staff exposure to COVID-19.
• A student or staff member who is quarantined following close contact with a case may not return to school until cleared to do so by DOH or the appropriate CMHD. A negative test obtained prior to the end of quarantine does not clear an individual for return. The entire quarantine period must be completed. Families will be notified of staff or student illness through phone and email communication from the Education Director. |
### Requirement(s) | Strategies, Policies and Procedures
---|---

| | • All staff working directly with students will be trained to monitor students for symptoms. Training will occur prior to the return to the building/program and will be reinforced by the administrators and nurse. Administrators will monitor the staff and provide on-going training as deemed necessary. |

### Other Considerations for Students and Staff

**Requirement(s)**

* Protecting students and staff at higher risk for severe illness
* Use of face coverings (masks or face shields) by all staff
* Use of face coverings (masks or face shields) by older students (as appropriate)

**Unique safety protocols for students with complex needs or other vulnerable individuals**

**Strategic deployment of staff**

**Strategies, Policies and Procedures**

- All staff will wear masks unless it is unsafe for them to do so. Staff who are unable to wear masks will be provided with face shields. Staff may wear additional PPE based on specific interactions they are having with students.
- Students will be actively taught to tolerate face coverings. Older students who have the ability to wear face coverings during the day will be required to wear them during periods when physical distancing is not possible. Students who are unable to tolerate face coverings will receive direct instruction. Students who do not respond to formal group lesson plans will receive an individualized assessment and teaching plan to increase their use of face coverings.
- For students who are at higher risk, the school administration with work with the student’s family and LEA to determine to best solution for instruction. This may include options for part-time schedules and remote learning.
- Staff who are at higher risk will work with the center People Operations department to determine appropriate modifications. This may include access to FMLA.
- Current practice allows buildings/programs to have regular building substitutes and part time staff. These teachers and instructional aides are familiar with our students and programming. These individuals will complete the same training protocols as regular staff. Administration will provide oversite and guidance.
Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for Devereux Advanced Behavioral Health reviewed and approved the Phased School Reopening Health and Safety Plan on

The plan was approved by a vote of:

Yes 8
No 0

Affirmed on:

By: Christopher Butler, Chair, Board of Trustees

*Electronic signatures on this document are acceptable using one of the two methods detailed below.

Option A: The use of actual signatures is encouraged whenever possible. This method requires that the document be printed, signed, scanned, and then submitted.

Option B: If printing and scanning are not possible, add an electronic signature using the resident Microsoft Office product signature option, which is free to everyone, no installation or purchase needed.
