Going Back to School After Coronavirus
It’s safe to go back to school! I have missed my friends and my teachers.
To say, “Hello,” or when we want to give a “high 5”, we will wave or do a “raise the roof” as the new way!
Something new after coronavirus! People may still be wearing a mask at school. The masks help to keep all people healthy. I’m good at wearing a mask.
I will go to school the same way I did before the coronavirus.
At school we will take more breaks to wash our hands and use hand sanitizer.
At the end of the day I will go home to my family.
