

PROMOTING RESILIENCE IN INFANTS AND TODDLERS

Premier Training!

The DECA-I/T is a premier instrument for assessing protective factors and screening for social and emotional risks in young children.

Join us for a dynamic one day training experience where participants will gain the skills to utilize this tool in a variety of early care and education settings.

DEVEREUX EARLY CHILDHOOD ASSESSMENT PROGRAM FOR INFANTS AND TODDLERS THE DECA-I/T

The Training will Explore:

- ✓ Resilience Theory and the link to social and emotional health
- ✓ The DECA-I/T standardized assessment tools for infants (1 month up to 18 months) and toddlers (18 months up to 36 months)
- ✓ The comprehensive 5-step system that supports effective implementation
- ✓ How to support resilience in very young children and caregivers while promoting a quality care giving environment
- ✓ The importance of family partnerships in successful implementation
- ✓ Evaluating progress in early care and education settings and in the home

Continuing Education Units (CEUs) for this training will be offered through Western Kentucky University, a fully accredited institution, for a small fee.
