Kids Need to Read!

Mystery or Science Fiction, Romance or Suspense...Everyone knows that reading is a great way to promote exploration within children. Not only does reading support literacy and education, it expands young people’s minds about the possibilities in life that may exist for them.

Devereux Colorado is Colorado’s premier facility for the treatment of youth with severe mental and behavioral challenges. The goal of the organization is to strengthen clients and their families, provide them with independent living skills and transition the youth back into the community.

“Kids Need to Read” is a great way to directly and positively influence a youngster who is getting their life back on track. Devereux Colorado invites you to donate books (new and gently used) for the youth we serve.

This program is ideal for volunteer groups, families, corporations, youth groups, fraternities/sororities and people just like you!

Please contact Craig DeLeone at (303) 438-2219 to learn more about our programs or to make a donation. Thank you!
